Limitless Lighting Controls:

*From **Standard** to **Smart:***

designed to be better.®

The right lighting controls will transform a home, improving how it functions, feels and looks...

Creating ambiance and adjusting light levels to fit any mood with dimming control.

Reducing energy waste by as much as 70% with sensors and timers that turn lights off automatically.

Adding comfort, safety and convenience with design-inspired smart devices that provide control from anywhere.

FEATURED SOLUTIONS

ALL LIGHTING CONTROL SOLUTIONS

Choosing the Right Lighting Control

Single-Pole One Location

Dim the lights from one location using a single dimmer switch.

3-Way Two Locations

Control the lights from two locations – one 3-way dimmer switch and one 3-way light switch.

Multi-Location Three or More Locations

Control the lights from three or more locations using a 3-way dimmer or multilocation dimmer.

Multi-Location With Smart Gateway

Control the lights from multiple locations with a wired switch, Smart Gateway and wireless switch.

LED Dimmers

Thanks to innate energy-efficiency and longevity, LED technology is the hero of modern dimming. Legrand provides control that's tailored to both the needs and advantages of LED lighting through our range of easy and reliable LED/CFL (120V) dimmers, available across six user-friendly interfaces.

Toggle Slide LED/CFL Dimmer *TSDCL303PW*	Wide Slide LED/CFL Pre-Set Dimmer *WSCL453PW*	Long Slide LED/CFL Pre-Set Dimmer *LSCL453PW*	Deco Rotary LED/CFL Dimmer *DRCL453PW*	**NEW** radiant® LED/CFL Dimmers *RHL153PW RHL373PW*	adorne® LED/CFL Dimmer *ADPD453LW2*

- Works with dimmable LED bulbs and fixtures up to 450W
- Also compatible with dimmable INC/CFL/HAL bulbs
- No neutral connection required
- Simple dimming range calibration
- Preset, Single Pole, & 3-way models available
- Most popular and efficient bulb/dimmer

0-10V LED Dimmers

Controlling the light level of compatible fixtures through DC voltage, 0-10V Dimmers can offer the simplest and smoothest lighting control experience with plenty of energy-saving potential. Available models feature multiple interfaces, including three unique designer options from the adorne® Collection.

Toggle Slide 0-10V Dimmer	Wide Slide 0-10V Dimmer	radiant® 0-10V Dimmer	adorne® 0-10V Paddle Dimmer	adorne® 0-10V sofTap Dimmer	adorne® 0-10V Touch Dimmer
TSD4FBL3PW	*WS4FBL3PW*	*RH4FBL3PW*	*ADPD4FBL3P2W4*	*ADTP4FBL3PW4*	*ADTH4FBL3PW4*

- Used specifically for control of any 0-10V dimmable LED fixture or driver (works with 0-10V fluorescent as well)
- Common in both commercial and residential lighting fixtures
- Control up to 30 dimmable 0-10V fixtures per dimmer

Tru-Universal Dimmers

Devised to take the guesswork out of compatibility and the flicker out of performance, Legrand's Tru-Universal Dimmers self-calibrate to work with virtually any 120V dimmable bulb or fixture (excludes 0-10V). Usable with LED, fluorescent, incandescent, MLV and ELV loads, as well as for forward- and reverse-phase dimming, the only decision required is which interface to choose.

TSD703PTUW	*RH703PTUW*	*ADTP703TUW4*	*ADTH703TUW4*	*ADWR703TUW4*

- Simplicity at its best: works with nearly any forward-phase or reverse-phase LED bulb or fixture
- Auto-calibration of dimming range for less installation steps
- Neutral wire required

adorne® and radiant® with Netatmo

Taking features and flexibility to another level, Smart Lighting with Netatmo grants advanced control of lights and power from anywhere. The Smart Gateway establishes a dedicated network to control the home's compatible smart devices, and an intuitive app simplifies control of lighting scenes and schedules, energy use and more. Smart Lighting with Netatmo is easily compatible with other smart products and offers ultra-reliable performance.

Smart Gateway

CAN SUPPORT UP TO 98 SMART DEVICES

NEW

Smart Lighting Easy Kits

- Conveniently add a dimmer or switch exactly where it's needed without running wires

- Add a Smart Gateway with Netatmo to control lights via app, connect to other smart products and more

| Easy 3-Way Switch Kit, White WNREZK10WH	Easy 3-Way Dimmer Kit, White WNREZK50WH	Easy Switched Outlet Kit, White WNREZK15WH

Smart Gateways with Netatmo

Creating an ultra-reliable mesh network that strengthens with every device added, just one Smart Gateway (in-wall or surface-mount) can support up to 98 smart switches, dimmers and outlets in a single installation. Mix and match smart devices from both the adorne® and radiant® Collections to create a perfectly personalized whole-home solution.

radiant® WNRH1WH	radiant® Surface-Mount WNRH2WH	adorne® WNAH1W1	adorne® Surface-Mount WNAH2W1

Smart Tru-Universal Dimmers with Netatmo

Leading smart home technology and versatile dimming compatibility converge in our selection of Smart Tru-Universal Dimmers with Netatmo. Available from both designer Collections, as well as in a convenient Plug-In version for smart control of dimmable floor and table lamps.

radiant® WNRL50WH	adorne® softTap WNAL50W1	Plug-In WNP20

Wireless Smart Dimmers with Netatmo

Made for adding 3-way control anywhere and everywhere it's wanted, these wireless smart dimmers mount to a wall or surface with provided adhesive – no wiring, no cutting, no tools required. Must be paired with a Smart Tru-Universal Dimmer with Netatmo.

Sensors and Timers

Saving energy is easiest when the lights turn off on their own. So whether it's auto on/off (occupancy sensors), manual on/auto off (vacancy sensors) or manual on/timed off (timers), these lighting controls from Legrand's designer collections offer eco-friendly efficiency, as well as convenience, in style.

radiant® Occupancy/ Vacancy Sensors RRW600UTC RRW600VTC	radiant® 4-Button Timer Switch RT2W	adorne® Occupancy/ Vacancy Sensors ASOS32W4 ASVS12W4	adorne® Sensor with Incandescent Dimmer ADSM703HW2	adorne® 4-Button Timer Switch ASTM2W2

Sensors can be used to comply with Title 24 efficiency standards.

• Reduce energy waste and cost
• Hands free comfort and safety
• Great for entry ways, closets, pantries and bathrooms
